## SUMMARY

---

Front-End Developer with a Bachelor's in IT and hands-on expertise in React.js, Node.js, and modern TypeScript for 2 years. Proven track record building responsive UIs, optimizing performance, and integrating REST APIs. Skilled with Redux, Git, HTML/CSS, and browser debugging tools. Strong communicator, team player, and quick problem solver, with experience leading digital projects and supporting technical operations in fast-paced environments.

## EXPERIENCE

---

**Full Stack Engineer [IT Manager]** May '25 — Present  
Royal Millennium Technical Services United Arab Emirates

- Excited to start a new chapter with Royal Millennium Technical Services! I've taken charge of the IT department, built the official website [React Js + Vite + Typescript + Chakra UI, Material UI + Node js + Mongo DB], and am leading our digital marketing efforts.

**Frontend Developer** Feb '23 — May '25  
Bab AL Wahda Digital Marketing Co. Dubai, United Arab Emirates

- I worked as frontend developer of Bab Al Wahda Digital Marketing Co.! I have worked closely to the construction companies to scale their business online. Created their website and integrate google and meta ads to get leads and helped them to stand out in the market.

**Website Developer and Sales Supervisor** Mar '23 — Nov '23  
Js bbq restaurant Dubai, United Arab Emirates  
I created and managed website and social media platforms, ran Google and Meta marketing campaigns for the restaurant.

**Technical Support Staff** Dec '23 — Mar '24  
COP28 UAE United Arab Emirates

- I worked in COP28 UAE as the meeting rooms coordinator.

**App support - Gitex Global** Oct '23 — Nov '24  
Vibes Events Dubai, United Arab Emirates

- I worked as a Mobile App Support Specialist in the Gitex Global Event.
- One of largest tech event in the world.
- We as team worked hard to make this event successful by giving mobile app support to the visitors and exhibitors.

## AWARDS

---

**President of IT Society** Oct '22  
National Textile University, Faisalabad

I was the president of IT society at NTU. We as society conducted a lot of IT events that helped the students to master skill and give exposure to the market needs and tailored skills to fit in the job market.

## PROJECTS

---

**Rently** , Community Service [Link](#) Jul '23 — Present  
Dubai, United Arab Emirates

- A modern platform for property owners and tenants to manage rentals, payments, agreements, and communication—all in one place.

### Features

- 🏠 Easy Property Management 🇲🇦 Online Payments 🗨️ Chat System 👤 Role-based Dashboards (Owner & Tenant) 🔒 Secure Authentication 🌐 RESTful API Backend (Node.js + Express) ⚡ Fast Frontend (React + Chakra UI + Vite)
- 🏢 Inspired by realworld rental scenarios in Dubai, tailored to meet the unique needs of property owners and tenants in the region.

**Art Glass Project** , Art Glass [Link](#) Jul '25 — Present  
Dubai , United Arab Emirates

- *Full Stack UI Developer (React.js, Vite, TypeScript, Chakra UI, Supabase)*  
Designed and implemented a modern web application for showcasing and auctioning art glass pieces. Developed the frontend using React.js, Vite, and TypeScript to ensure fast performance and maintainable code. Utilized Chakra UI for a responsive and visually appealing interface. Integrated Supabase as the backend to manage authentication, database operations, and real-time updates. Delivered a seamless user experience by bridging UI/UX design with robust backend functionality.

**House of Oxen**, NTU FYP Project [Link](#) Apr '21 — Jul '22  
Pakistan

- *Frontend Developer (React.js, vue, javascript, Bootstrap)*  
Developed the user interface for an online auction platform using React.js. Implemented dynamic and responsive components for real-time bidding, item listings, and user authentication. Collaborated with backend developers to integrate RESTful APIs and ensure seamless data flow. Focused on delivering an intuitive user experience with modern design practices and efficient state management.
